

技術合作與轉移 | Technology Dissemination

開放式軟件

為促進 **OPERA** 與本地互聯網工業在技術上的合作轉移，本計劃採用了開放原式碼軟件模式，將未來各系統組件與原式碼公開。此外，為著可更清楚了解到業界的回應，和提高技術轉移的成效，我們歡迎各機構和組織參與我們的業界合作計劃。

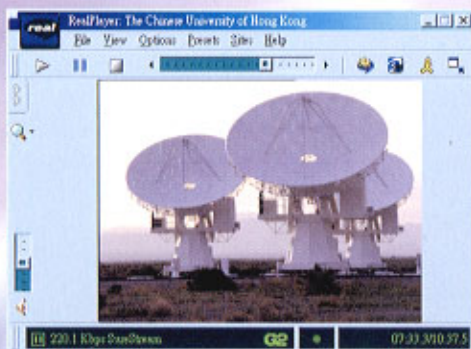

業界合作計劃

Hong Kong CyberLibrary (HKCL)

HKCL 是為各多媒體資訊供應商而設的一個合作計劃，目的為設計一套可給各合作夥伴簡化在多媒體檔案製作和處理上的煩複程序。

互聯網商技術合作組

SPC 是為各互聯網商而設的另一個合作組織，參與之互聯商可以更早採用到 **OPERA** 的技術和發展成果，此外，各參與組員可透過整合 **OPERA** 技術於他們的網絡系統上逐步掌握該技術，與及推動其發展和方向。

Open Source Policy

To facilitate the transfer of **OPERA** technologies to the local industry, we adopted an open source policy where both binary and source code for the finished system components will be made publicly available. Additionally, to further enhance early feedback and technology dissemination, we welcome local companies and organizations to join our industry partnership programmes.

Industry Partnership Programmes

Hong Kong CyberLibrary (HKCL)

HKCL is the industry partnership programme designed for Multimedia Content Providers (MCP). The aim of this programme is to disseminate tools and technologies to enhance the authoring and composition of multimedia contents for delivery Internet.

Service Provider Consortium (SPC)

SPC is the industry partnership programme designed for Internet Services Providers (ISP). The aim of this programme is to allow local ISPs to have early-access to the **OPERA** technologies. This enables to integrate the **OPERA** technologies into their network and application infrastructure to progressively adsorb the technologies and to steer the project's future developments.
